**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 68 and 71-73 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

In claim 68, the recitations "at least one continuous first surface" and "at least one continuous second surface" are deemed to be new matter because the phrase "at least" has no upper limit and is not supported by Applicant's disclosure, as originally filed. Similarly, in claim 71, the recitations "at least one continuous external surface" and "at least one continuous internal surface" are deemed to be new matter because the phrase "at least" has no upper limit and is not supported by Applicant's disclosure, as originally filed.

In claims 68, 72 and 73, the phrase "the first portion and the second portion being selectively and independently movable relative to the other" is deemed to be new matter because the phrase "independently movable relative to the other" is not supported by Applicant's disclosure, as originally filed.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 37-40, 42-43, 47-49, 51-52, 55-57, 61-62, 64-65, and 68-73 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly

point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 37, the "first outer surfaces" and "the second outer surfaces" render the claim vague and indefinite since earlier in the claim only "a first outer surface" and "a second outer surface" is recited.

Similarly, in claim 55, "the anterior outer surfaces" and "the poster outer surfaces" render the claim vague and indefinite since earlier in the claim only "an anterior outer surface" and "a posterior outer surface" is defined.

In claim 68, the recitation "said second surface does not move alone any part of said first surface" renders the claim vague and indefinite since it is unclear what structural relationship between the first surface and the second surface is being claimed.

In claim 68, the "first outer surfaces" and "the second outer surfaces" render the claim vague and indefinite since earlier in the claim only "a first outer surface" and "a second outer surface" is recited.

Appropriate correction is required.

### ***Response to Arguments***

Applicant's arguments have been fully considered but are moot in view of the new grounds of rejection.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
